

# 43 σαραντατρίο

menu

## Few words... just for the beginning...

Our decision to follow a different path, with alternative suggestions was something natural for us, despite all difficulties.

Time shows that our choices justify and the acceptance and the support from all of you is becoming bigger and bigger. We feel great joy and obligation to support the Greek producer, especially these difficult days, as long as the product is qualitative. We continue dynamically, by choosing the best we can, directly from the production site, when this is possible. We insist on our choice, for qualitative, Greek, bottled wines at the right price and we say "yes" to the Greek microbreweries.

Our promise: Not to let your palate to get bored.

The background is a light-colored, textured wall, possibly plaster or concrete, showing signs of wear and aging. On the right side, there are two distinct areas where the wall's surface has been removed, revealing a red brick structure underneath. In the bottom left corner, there is a cluster of small, vibrant flowers, including white daisies and pink cosmos, growing from a patch of green grass.
